

COMPACT TRAPPING STATIONS CTS4U (For use with universal swivel connector steam traps)

DESCRIPTION

The UniADCA CTS4U is a complete and compact steam trapping station designed to be used as an alternative to traditional multi-component trap stations, simplifying maintenance and reducing downtime and associated costs.

The swivel connector allows steam trap replacement in only a few minutes without disturbing the pipeline.

Compatible with "two-bolt" UniADCA universal steam traps and other universal steam traps with swivel connector.

Typical installations include drip service on steam lines, tracing, SKID's and small process equipment.

MAIN FEATURES

Built-in strainer and check valve.

Reduced downtime and costs due to easy in-line maintenance.

Safe depressurization through bleed valve or BDV.

Available in multiple configurations.

Extended handles for thermal insulation, with locking system.

Universal steam traps can swivel 360°, allowing the steam trap to be fitted in the correct position, regardless of pipeline configuration.

OPTIONS: BDV – Blowdown valve.

USE: Saturated and superheated steam.

AVAILABLE MODELS:

CTS4U – standard valve.

CTS4UD – double block at the inlet.

CTS4UDB – double block and bleed at the inlet.

CTS4UDBV – double block and bleed and vertical inlet.

CTS4UDB2 – double block and bleed at both inlet and outlet.

CTS4UDB2-VH – double block and bleed at both inlet and outlet; vertical inlet and horizontal outlet.

SIZES: 1/2" to 1"; DN 15 to DN 25.

CONNECTIONS: Female threaded ISO 7 Rp or NPT.
Flanged EN 1092-1 PN 40.
Flanged ASME B16.5 Class 150 or Class 300.
Socket weld (SW) ASME B16.11.

INSTALLATION: See IMI – Installation and maintenance instructions.

MATERIALS

POS. N°	DESIGNATION	MATERIAL
1	Main valve body	A351 CF8 / 1.4308
2	Ball valve body	A351 CF8 / 1.4308
3	* Seat	PTFE with filler
4	* Valve ball	AISI 316L / 1.4404
5	* Stem	AISI 316L / 1.4404
6	* Stem seal	PTFE with filler
6A	Compression washer	AISI 316L / 1.4404
7	* Lock washer	AISI 304 / 1.4301
8	Compression nut	Stainless steel A2-70
9	* Spring washer	AISI 304 / 1.4301
10	Stem nut	Stainless steel A2-70
11	Locking piece	AISI 304 / 1.4301
12	Handle	AISI 304 / 1.4301; Vinyl
13	* Body seal	PTFE
14	End connection	A351 CF8 / 1.4308
15	Bolt	AISI 304 / 1.4301
16	Nut	Stainless steel A2-70
17	* Strainer screen	AISI 304 / 1.4301
18	* Gasket	Stainless steel / Graphite
19	Strainer plug	AISI 304 / 1.4301
20	* Check valve seat	AISI 304 / 1.4301
21	* Check valve ball	AISI 304 / 1.4301
22	* Spring	AISI 302 / 1.4300
23	* Gasket	Stainless steel / Graphite
24	Check valve cover	AISI 304 / 1.4301
51	BDV blowdown valve	AISI 303 / 1.4305 ; AISI 316L / 1.4404

* Available spare parts.

Special construction / Additional options										
A full description must to be provided and validated in case of a non-standard construction										E

a) As standard, in versions with EN flanges or female ISO 7 Rp threads, these connections are female threaded ISO 7 Rp. In versions with ASME flanges, female NPT threads or SW, these connections are female threaded NPT. Connections follow the same size as the pipe end connections.

b) Applicable in valves with flanged end connections. Connections follow the same standard and size as the pipe end connections, e.g., if the end connections are flanged EN 1092-1 DN 25 PN 40, the bleed connection is also flanged EN 1092-1 DN 25 PN 40.
