

(V25 globe valves series with PPI series linear piston actuators)

### **DESCRIPTION**

The PPV25 on-off valves are single seated, two-way body constructed with in-line straight connections. The PPI pneumatic actuators are of the piston type.

Their wide application ranges allows the use of this valve with the most common process fluids such as water, superheated water, steam, air, gas and other fluids.

### MAIN FEATURES

Single seated, two ways, direct or reverse action valve. Soft sealing as standard.

Actuator housing 360° rotation (clockwise).

OPTIONS: Air filter regulator.

Normally open and double effect

actuator versions. Inductive travel switch. Pilot solenoid valve.

USE: Saturated and superheated steam.

Hot and superheated water.

Air, gases and other non-corrosive

fluids.

AVAILABLE

MODELS: PPV25G – Nodular iron.

PPV25I - Stainless steel.

VALVE SIZES: DN 15 to DN 50.

CONNECTIONS: Flanged EN1092-1/-2 PN16.

ACTUATORS: PPI-63 (stainless steel);

PPI-90 (stainless steel).

**ACTUATORS** 

CONNECTIONS: PPI-63: G1/8" NPT;

PPI-90: G1/4" NPT.

AIR SUPPLY

PRES.: 5 - 8 bar (max. 8 bar).

**AMBIENT** 

TEMP.: -20 °C to 70 °C.

BONNET: Standard – up to 220 °C;

Extended finned – above 220 °C.

STEM

SEALING: PTFE/GR V-Rings – up to 220 °C.

**PLUG** 

DESIGN: PT – On-off.

PORT: Full port as standard.

# \*\* TRAVEL SWITCH

The travel switch provides an electrical signal that indicates either the open or closed position of the valve. This signal is given by a non-contact electronic inductive proximity sensor.

## Example:

PPV25G valve model, on-off soft plug, DN 15, fluid entering above the seat, complete with reverse action stainless steel actuator:

Code: PPV.25G9L15A.90.R

# REMARKS:

- (1) Indicate actuator type.
  (2) Omitted if the standard valve is selected.

ADCATrol control valves are identified by a serial number on a nameplate, located on the actuator yoke.

When ordering spares, always use that serial number. If the valve has non-standard extras the serial number also has an E (extras).
